- 2- Display CDs in “cd_catalog.xml” in Table sorted according to price in descending order.
- 3- Display CD TITLES from “cd_catalog.xml” in table where bgcolor color for CDs with price >10 is Red and all the others are green

4-

```
<?xml version="1.0"?>
<?xml-stylesheet type="text/xsl" href="prg62.xsl"?>
<xslTutorial>
  <word id="czech"/>
  <word id="Czech"/>
  <word id="cook"/>
  <word id="TooK"/>
  <word id="took"/>
  <word id="Took"/>
</xslTutorial>
```

cook
czech
Czech
took
Took
TooK

5-

```
<?xml version="1.0"?>
<?xml-stylesheet type="text/xsl" href="prg5.xsl"?>
<xslTutorial>
  <number>1</number>
  <number>3</number>
  <number>4</number>
  <number>17</number>
  <number>8</number>
  <number>11</number>
</xslTutorial>
```

$$1 + 3 + 4 + 17 + 8 + 11 = 44$$
